

Making the Move. Why Procurement Teams Leave Manual Paperwork Behind.

Digital transformation
benefits every phase of the
agreement lifecycle

The truth is paper documents create issues for procurement teams

These same teams have **priorities** that will make using paper more painful

To achieve these goals,
savvy teams have begun to
automate contract processes

A majority have started out strong with electronic signature

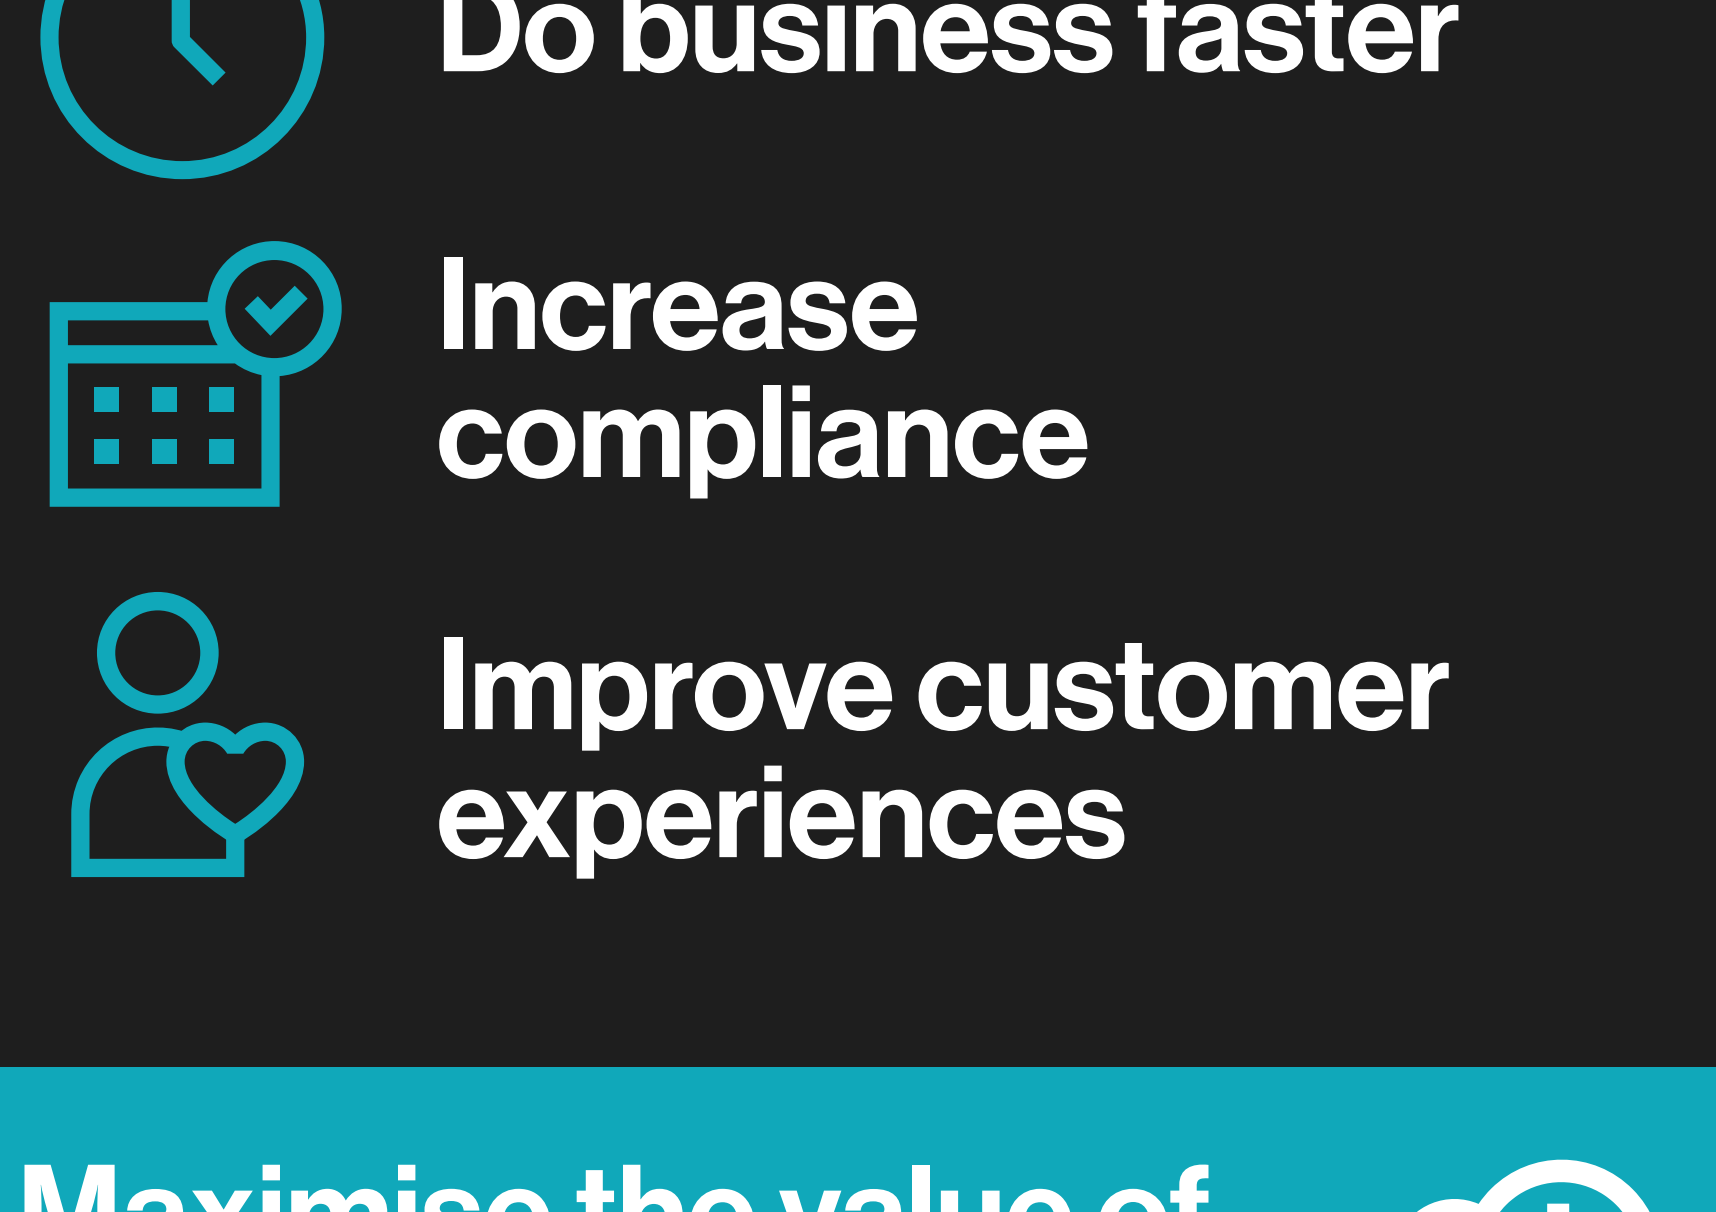

But they still experience problems with other stages of the agreement lifecycle

The message is clear. Companies that don't go all-in on digital transformation miss the benefits of automation.

DocuSign was named a leader in the 2020 Gartner Magic Quadrant for contract lifecycle management
