

Eliminate contract stall and close deals faster

Business sales are getting more and more complex. According to Gartner, the average business-to-business purchase takes 16.7 weeks and involves 9.6 people on the buying side. Companies are using platforms like CRM and CPQ to centralise data and streamline the complex sales process, but there's plenty of pain points along the way—getting an agreement completed prime among them. Sixty-four percent of companies say the contract approval process causes lost or stalled deals. It's easy to see why. The contracting process lies at the heart of every sale, yet it hasn't changed in decades. It's time for an upgrade. DocuSign delivers a modern system of agreement that closes sales fast for a great experience all around.

Faster sales

Get revenue on the books in minutes rather than weeks or even months with an automated agreement process from contract generation and signature to storage and management.

No more copy/paste

Let sales spend more time with customers by minimising the tedious work of keying in data, chasing contracts and getting approvals. DocuSign makes sales easy by minimising manual processes (and errors) across the agreement process.

Cut costs

Manual processes mean high costs, especially with a complex process like a business-to-business sale. Using DocuSign cuts those costs, saving customers £30 per transaction on average.

A great experience

Businesses increasingly expect a consumer-grade experience, meaning they want a fast, convenient, technology-based buying process. Make things easy on them with a modern contracting process.
